| • Laravel | • Vue | • MySQL | |

PROJECTS

PC Management

Maintainer

- PC Management System designed to monitor every company laptop and desktop, tracking all installed software against each team's standard list.

Material Gatepass

Main programmer

- Material Gatepass System that digitizes the manual process of tracking materials entering and leaving the building. Instead of relying on printed templates and handwritten records.

Office Supplies Inventory

Main programmer

- The system records costs at the team, section, and department levels, generates monthly cost graphs, highlights frequently requested or fast-depleting items.

PROFESSIONAL EXPERIENCE

Web Developer, HRD Singapore Pte., Ltd.

Aug 2022 to Present

Cavite Eco Zone II, Cavite

- Assisted in training new employees on Javascript programming, contributing to their skill development and team integration.
- Developed a Material Gatepass System to replace manual tracking of incoming and outgoing materials with a structured, digital process.
- Implemented an Office Supplies System that shifted manual request and cost monitoring into a web-app-like interface for streamlined replenishment.

Office Staff /Group Leader, HRD Singapore Pte., Ltd.

Dec 2016 to Aug 2022

Cavite Eco Zone II, Cavite

- Led the team as Group Leader to successfully meet productivity targets.
- Actively participated in monthly Kaizen activities, identifying process improvements and implementing efficiency solutions.

EDUCATION

Montessori Professional College, Pasay City

Jun 2012 to Jul 2014

Diploma in Information Technology
